Read Luke 12:22-34

What are a few things you find yourself worrying about as you trying to figure out a new normal?

Has this experienced exposed a few things that you have set your heart upon that are temporary?

Worry is a very close cousin to fear. They are usually seen together. Share with each other things that scare you about the Coronavirus and the financial impact.

Spend some time listing reasons why Jesus tells us not to worry or be afraid. (Luke 12:22-34)

Brainstorm traits of God that counter our fears and worry.

How does setting your heart on God change how you deal with your circumstances?

What action steps could you take to encourage others who might worry or be afraid?

Close your time by reading John 16:33 and then spend some time praying that God would grant you peace and remind you of his love for you and your neighbors.
